## Who Should Attend?

This program is intended as refresher training for municipal and county public works crews, Highway Superintendents, and laborers. It is also useful for new employees with less than six months experience. It may also be useful to local government utility workers, law enforcement officers, and emergency response teams who occasionally need to redirect traffic. ***This course does not cover flagger responsibilities.***

## Topics Covered

The purpose of this program is to provide training and guidance in the following activities:

- 1 Selection of the proper traffic control devices and implementation procedures that conform to current standards and effectively meet the needs of the situation.
- 2 Application of appropriate techniques for layout, installation and removal of the traffic control system from the temporary traffic control site.

## Training Schedule

9:00 AM	Introduction
9:40 AM	Two Lane Problem
10:05 AM	Part VI-MUTCD & other References
